Unusual Case

At last The Chicago Tribune and some of its kind are to have a day in court. The Department of Justice has made technical charges of violating the 1917 Espionage Act before the grand jury in Chicago. It is a technical charge but a jury might become interested in many of the news methods of The Tribune, altho government atterneys have stated they will confine themselves to the technical charge and its

The nation would really be interested in seeing all the cards on the table now that The Tribune has actually been brought into court for some of its news methods. Making the technical charge of violating the 1917 law is similar to the method followed by the government in restling bir-time gammters of the Canone type behind the bars. The government found a way to bring income tax charges against the big-timers, and it really worked. The technical charge against The Tribune may bring results, but it will be a big job for the government to really prove

technical violations. In order to save the American ideal of a free press from gross abuses, there are at least two broad principles on which The

Tribune and its kind should be tried: 1. Whether a newspaper or publica- , tion accepting advertising on consumer poods has the right to set out on-a deliberate campaign of destructive criticism against the national government in time of war. Careful distinction should be made between bold and timely criticism and a deliberate campaign of agitation by a newspaper simply because the publisher does not like the acts or program of the national

of The Tribune when tried on such a principle.

when they buy advertised goods.

I would like to see the principle carried even further and test the right of newspapers and publications, which occept advertising of consumer goods, to engage in partisan politics, 2. Whether a newspaper or publication that accepts advertising of consumer goods, thus drawing its support involuntarily from all parties and groups, has the right to engage in partisan crusades or dictate to its readers how they should vote. It would be interesting to place such a bombshell in The Tribune trial and ask what responsibility it owes to the necole who are compelled to support the publication

government. Any jury would have to make short shrift

It is about time somehody exploded the old buncombe that if people don't like a paper they shouldn't buy it. In the first place, all newspapers have important monopolies on news services, features and writers which almost compels the public to buy them. Most important of all, the real support of the paper is in the purchase of advertised goods and the public can hardly be asked not to buy advertised goods

simply because they do not like The Chicago Tribune. -It is an interesting revelation to sit down and make a list of all the advertisers in a paper like The Tribune and see in how many ways you contribute to its support. The

Tribune carries national advertising too, which means that people in all parts of the country contribute to its monopolies when they buy advertised goods. It is about time somebody called the attention of the press to the duty of maintaining

a fair and well-balanced policy of news and editorials when people of all parties. classes and groups are indirectly compelled to support the press. The Tribune will being up the old both about "freedom of the press," courage of

convictions and all the other arguments well known to all. There ought to be some way in which the people could present their ease for fairness, reason and balanco in all phases of a newspaper.

It is well known that The Telbona dictates the city government of Chicago and can ruin any administration that does not follow The Tribune's will. The paper also

dictates many of the State administrations. This type of pewspaper government is found in many other States and cities and is a thing that ought to be discarded. if we are to make democracy work,

Even small industries like the juke box trade can appreciate the power for destruction hold by such papers as The Tribune. In at least two instances in as many years The Tribune has started crusudes against juke boxes for some strange reason. In one case it made big news of the crime of one person and gave it to the press of the nation as if it . were the crime of an industry. In another case it paraded a cheap publicity stunt to the serious damage of a small industry. When the publicity seeker was finally called before the city council she frankly boasted that the whole scheme was

Marnify these injustices to small trades and individuals a million times and you will get an idea of how a powerful newspaper can sabstage the war effort in these eritical times. Then you will pray that the grand jury in Chicago may have the courage to break over the narrow technical charges before it and really investigate The Chicago Tribune and its kind.

concocted simply to get publicity.

1015 NO PULASEI ROAD

P. O. Box 224, Cambridge, Ohio

Phone AMBassador 3807

Dear Friends:

co-operation and reception you gave our games while we were at The Exhibit Supply Company.

My partner, Lyn Durant, and I wish to thank all of you for the splendid

As most of you know, we designed, engineered and put into production such games as the following: "Leader, Zombie, Duptex, Stars, Sun Beam, Sky Blazer, Knockout, Big Parade, Sky Chief" and many others.

We now wish to announce the opening of our own factory, the UNITED MANU-FACTURING COMPANY. We are devoting a special department for the revamping of your old games. The first two of which are ZOMBIE and SUN BEACH

Zombie will be known as "MIDWAY" and Sun Beam will be called "SUN VALLEY." $\,$

Here are a few of the things we do to your old games:

We strip your old play-board and throw it away.

- 2. We design an entirely NEW and DIFFERENT
- play-board.
- 3. Complete NEW and DIFFERENT art work. -
- 4. All mechanical parts thoroughly reconditioned.
- Cabinet—well, just wait 'til you see it—something NEW and DIFFERENT in design!
- Kindly do not confuse our service with those that merely repaint and dress-up your old game. We actually CHANGE IT. The same time, effort and engineering skill will go into these games as we spent on brand new ones.

Your game will come back to you 100% mechanically perfect. We tried to build a mechanically perfect game while at Exhibit and you can be sure we will continue to do so.

By creating this service now when new games are no longer available, we feel that it will help keep our many friends in business thru the duration.

Again may we thank you and hope you will avail yourself of our service by sending us your old Zombies and Sun Beams to be revamped.

Sincerely yours,

UNITED MANUFACTURING CO.

Harry Williams

Charlie Herren's in Atlanta

PROVES AGAIN ...

WURLITZER
IN AMERICA'S
TOP
LOCATIONS

Like many a famous restaurant, Charlie Herren's in Atlanta offers its patrons fine food and quality entertainment — does it by means of Wurlitzer Music.

Here a Wurlitzer Model 950 Phonograph, Auxiliary Wurlitzer Speakers and a battery of Wurlitzer 5-10-25c Wall Boxes have long proved their ability to attack, please and acted in Herron's boat for automate.

The tone quality and trouble-free operation of this large Wurlitzer Installation is demonstrating daily why, here as everywhere, it's Wurlitzer in America's top largitiess.
